Locus 117

Phase: -Pre sun fill inside

Maoz: tens of coins were found with in the foundation of the missing floor, especially in Locus 117 where the excavation went deeply into the fill.

Next sentence (p. 5) Because this layer of foundation and its coins were not stratigraphically sealed from above (due to Phase I disturbances), probes were conducted under the in situ flagstones in 2 places, L. 117 and 124.

Ceramics: none drawn, 1 turkish pipe.

Coins: 58 (364-395 CE)
